- b) Regarding claim 44, please add the following at the last line.
-- wherein X1 and X2 represent modulation symbols, and θ represents a code selection parameter, --
- c) Regarding claim 45, please add the following at the last line.

In specific, the encoder selects an orthogonal space-time block code of a matrix form with vector elements: X_1 , X_2 and θ , and selects at least two modulation symbols based on the group of input bits and the state of the encoder, one symbol for each of the at least two transmission elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
